THE ELITE CLUBS' COACHING AND ANALYSIS SOLUTION

Make it part of your existing workflow today!

Overcome the (COVID) Challenge

The world of sports has been thrown into challenging times... Now's the time to enjoy the benefits and cost savings that Pixellot Coaching can bring to your team.

Fitting seamlessly into your workflow, Pixellot Coaching lets you take advantage of our powerful analysis platform or any other platforms that you use today.

01

Preparation
Record and edit entire sessions using a wide-angle shot of the pitch. Focus on multiple drills using fixed frames and time marks or switch to panoramic mode for a full-field view. Clips can also be reviewed on mobile devices for analysis on the go.

02

Live Analysis
The full-pitch tactical mode captures every player on the field to assist in real-time dugout and locker room decisions. Study formations and team performance, tag and edit clips on the go for instant replays and to create half time video reels that give a competitive edge in Realtime.

03

Review
Capture full game footage for detailed breakdowns. The game is automatically uploaded to our video analysis platform and is available shortly after the final whistle blows. Self-code the match, edit clips, tag events, share footage and analyze full game, team and player data.
No need for additional platforms!
