Pixellot

WWW.PIXELLOT.TV

ONE AI-AUTOMATED™ SOLUTION, DOES IT ALL!

Pixellot's set & forget AI-Automated solutions deliver HD & panoramic live match feeds with a low-latency stream.

Capture Video

Installed or portable Multi-cam arrays deliver HD and panoramic live match feeds with a low-latency stream, while some solutions can even work with consumer action cams!

Create Content and Data

Pixellot radically reduces production costs. Now, teams at every level can produce high-definition video feeds and stream games and practice sessions to fans, family, friends, and coaching staff. Quality video content and data include in-game scoreboard, stats, graphics and banners etc.

Engage Fans

The ability to broadcast live and distribute content on-demand via our branded OTT platform helps keep fans engaged and fanbases intact. Using the Pixellot app, it's easy to generate rich personal content such as game and player highlights. These can be shared on social media, driving engagement and publicity.

Analyze and Review

The enhanced video capabilities deliver professional analysis tools, stats, and game video breakdowns for analysts and coaching staff. As a video exchange platform, it enables sharing footage while providing advanced stats, charts and heatmaps.

Monetize

Pixellot solutions engage viewers, subscribers, and advertisers, unlocking innovative business models and new opportunities for generating revenue streams such as: subscriptions, PPV/on-demand, advertising, sponsorships and live data.
